

DUO SOCKET™

Dual Purpose Sockets for the Professional Technician

DUO SOCKET™

Dual Purpose Sockets for the Professional Technician

The thin-wall design of chrome hand sockets has been combined with the strength and durability of GP Impact Sockets to create DUO-SOCKET™. Built specifically to address the needs of the professional technician using hand tools, cordless Impact tools and air tools; DUO-SOCKET™ provides one socket for all applications.

The GP **Precision Drive Ratchet** provides unmatched smooth performance and durability. The ergonomically designed handle adds comfort to all working conditions.

All sets feature wobble extensions which provide 15° of deflection and can also be locked straight for normal use.

Low profile ratchet design allows greater access to confined areas and will not catch on items in the work area.

Recessed quick release button prevents accidental release of the socket.

All DUO-SOCKET™ sockets are marked by both roll stamp and large laser etching on the opposite side, providing a lifetime of readability.

Note: To enhance and protect the finish of DUO-SOCKET™, wipe occasionally with non-detergent oil.

1/4", 3/8" & 1/2" Precision Drive Ratchets

The GP **Precision Drive Ratchet** provides unmatched smooth performance and durability. The ergonomically designed handle adds comfort to all working conditions.

Safety Rules

THIS SYMBOL INDICATES A
HAZARD ALERT WARNING

MANDATORY EYE
PROTECTION

Important Words
About Safety for
Users and Bystanders

These safety recommendations simply reflect good engineering practice and are not intended to be a comprehensive set of rules. They compliment, but do not replace standard precautions to be taken by every user in compliance with professional guidelines, company procedures or national regulations. Keep and follow all power tool manufacturers operating instructions and safety rules. Remember, all the rules in the world cannot replace good common sense.

- Always wear eye, face, hand and body protective equipment while using or near the use of any Impact Tool or Attachment.
- Use only Impact Sockets or Chisels that are in good condition. Worn Tools reduce impact power and could also shatter, resulting in personal injury.
- Always select the correct size and type of Tool for the job to be done.
- When using a Universal Joint, Adapter or Extension Bar, never operate the Tool off the work.
- Use only Socket Retaining Pins designed for that purpose. Never use a make-shift pin.
- Never continue to hammer with an Impact Socket once the Fastener is tight.
- Always use the simplest hook-up possible. Long Extension Bars and Adapters absorb impact power and could break loose, resulting in personal injury.
- Never modify an Impact Socket from its original design to accomplish a task for which it was not intended.
- Never strike an Impact Socket or Chisel with a Hammer or other hard object.
- Never hold a Socket, Chisel, Universal Joint or other Attachment in your hand while the Power Tool is running.
- Keep tools away from Children.

GP Lifetime Warranty

Grey Pneumatic Impact Sockets, Duo-Sockets™, Ratchets & Chisels are warranted against defects in materials and workmanship for the life of the product. Quick change retainers and some special application items are warranted for one year from the date of purchase. Some items are No-Warranty and are marked on the product. These warranties do not apply to items that have been misused, abused, altered in any way, or worn out from use. Grey Pneumatic makes no other warranties with respect to our products or their suitability for specific applications.

Sets: Warranty on sets applies to the individual parts within the set. If one part is deemed defective we will replace that part and not the complete set.

Ratchets: Grey Pneumatic will at its option, provide repair parts, repair or replace any ratchet deemed defective. Use of handle extension bars will void all ratchet warranty as will visible signs of abuse to the handle or any other areas.

All claimed defective tools must be returned to the place of purchase for replacement. In cases where there is a question regarding defective or abused tools, the distributor will return them to Grey Pneumatic for a determination. After a determination is made we will credit, replace or repair the tool at our option. Tools that have been ground, filed, welded, hammered or modified in any way, are not covered under the GP Lifetime Warranty.

Grey Pneumatic shall not be liable for any consequential or incidental damages incurred by the purchaser. Buyer's sole and exclusive remedy for any loss incurred shall be a refund of the selling price.
